ONLINE DISTRIBUTION OF ACCIDENT AND INCIDENT REPORTS TO BE OFFERED BY EMPIRE SOFTWARE SOLUTIONS.

Empire Software Solutions announces that it has put an Agreement in place to represent PoliceReports.US's online distribution of accident and incident reports solution in New York State. Police Agencies strive to provide better service and lower costs. The PoliceReports.US solution can help law enforcement agencies do this with an Internet based, secure and easy to implement offering.

"We are always looking for software solutions that can assist police agencies in being more efficient. When we found one that can do this at no cost to the agency we knew it would be a winner. We also like that PoliceReports.US offers a flexible solution that will meet the requirements of our customers" said Mike McGuire (VP of Business Development).

"Empire Software Solutions has positive working relationships with many police agencies in New York and we look forward to working with them to provide this exciting solution" stated Craig Huneycutt (President, PoliceReports.US).

Empire Software Solutions works with Law Enforcement agencies to determine the right products for their organization and then makes sure they get properly installed and provide the anticipated benefits.

Empire Software Solutions identifies and then represents software companies that offer solutions that will benefit state/ local government and public safety.
