Ayer MA Police provides On-Line Accident Reports with PoliceReports.US

Last month, the Ayer MA Police Department started a business relationship with North Carolina based PoliceReports.US. The company provides a **free** service to local police departments that will place Ayer's accident reports on-line so they're available 24/7 for residents and insurance companies. "Our department gets a fair number of requests from insurance companies for these crash reports. This takes our records staff a good portion of the day trying to fulfill these requests," said Lt. Brian Gill. "We expect this service will save our employees valuable time that we can use in other areas of the department."

The Ayer Police Department serves a Town of close to 7,500 citizens with 17 sworn officers covering over 9 square miles. The Department has a progressive outlook on technology to improve and provide better service to the public.

"With many police departments facing fiscal constraints these days, departments are forced to find ways to do more of their work with fewer employees" stated Mike McGuane (Regional Manager).
