Niagara County Sheriff's Office to Implement POSS/COSS to Improve Shift Scheduling and Streamline Payroll Processing

Niagara County in Lockport, NY has signed an Agreement to implement the Police (Corrections) Officer Scheduling System (POSS/COSS) at the Niagara County Sheriff's Office. "In this time of tight County budgets we must use our personnel resources as effectively as possible. The POSS system will allow us to do this by streamlining the shift scheduling and payroll data collection process" stated Sheriff James R. Voutour "When implemented, POSS will allow Supervisory and Administrative staff to redirect time that is presently spent on this tedious task to other critical areas in the Sheriff's Office."

The Niagara County Sheriff's Office has over 300 employees serving the County of 220,000. They are the third NYS Sheriff's Office that will improve efficiency with the implementation of POSS.

"I have had the opportunity to work with the Niagara County Sheriff's Office for many years and look forward to assisting them in the successful implementation of this system" said Mr. Mike McGuire (VP of Business Development). The project will start in August and is expected to go live in the fourth quarter.
